Practical digital skills for the real world

Skillora is a global online academy helping people build practical AI, technology, business and career skills through short, accessible learning.

SHORT LESSONS

Focused lessons designed to fit around work and everyday life.

FLEXIBLE ACCESS

Start with selected free courses, buy a course, or choose Pro library access.

VISIBLE PROGRESS

Track learning, complete quizzes and earn verifiable course certificates.

What learners can do

- Browse published courses across AI, data, marketing, business and workplace skills
- Learn on mobile, tablet or computer at their own pace
- Use the AI course advisor to choose a starting point
- Follow editorial career pathways mapped to existing courses
- Keep course progress and certificates in a personal account

SKILLORA FOR BUSINESS

A straightforward enquiry route for team training

Organisations can share their team size, priorities and timeframe. Skillora reviews each enquiry privately against the current course catalogue.
